

#### Datasheet

**IP20** 

LEDCOMFO® Panel series is a cost-effective side-lit luminaire with slim size that offer uniform full surface lighting. Suitable for recessed, suspended and integrated ceiling mounting, the extreme thin height of luminaire makes the installation really easy and simple, and fit in any tight installation space. LEDCOMFO® Panel series is an excellent choice for quality projects with a tight budget.

#### **Benefits**

#### Excellent lighting effect

- High quality LED brings higher consistency
- Good uniformity with well-designed side-lit technology

#### Efficient

- Up to 100 lm/W efficacy
- Less than 1 year payback

#### Reliability

- · Seamless metal rim offers robust structure
- 3KV surge stand up for challenging electrical situation
- 25,000hrs lifetime

#### Flexibility

- Max. 11mm height fits in tight installation space
- T-bar recessed and integrated ceiling recessed installation
- Offer normal and high brightness version for choosing

#### **Applications**

- Offices
- Hospitals
- Schools
- Banks
- Express stores

Due to the special conditions of manufacturing process of LED, the typical data of technical parameters can only reflect statistical figures and do not necessarily correspond to the actual parameters of each single product which could differ from typical data.

 $\label{thm:condition} \text{Exceeding maximum ratings for operation voltage will cause hazardous overload and will likely destroy the LED module. }$ 

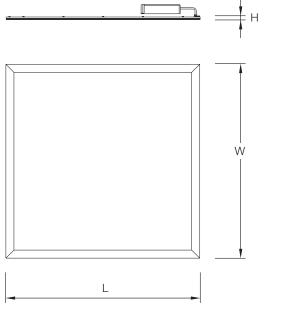

Exceeding maximum ratings for operation and storage temperature will reduce expected life time or destroy the LED module.
