

LEDVANCE® Floodlight LED

The LEDVANCE® Floodlight LED range of compact floodlights are an economical replacement for traditional double-ended halogen-lamp floodlights. The combination of high-efficiency LEDs and a high-reflectivity optic ensures excellent light output for general-purpose applications. The floodlights' long life time enables substantial energy and maintenance savings. A universal mounting bracket allows wall or surface mounting that tilts upwards or downwards. The LEDVANCE® Floodlight LED range are available in black and white housing, and can be equipped with a combined presence/daylight sensor.
