

LED Highbay

The HKD-HB-02 LED Highbay Series is a cost-effective and efficient lighting solution designed for industrial and commercial environments. Built with high-quality LED chips and reliable drivers, it delivers a luminous efficacy of over 100 lm/W and a CRI >80, ensuring bright, natural illumination. Its durable die-cast aluminum housing provides good heat dissipation and long-lasting performance, with a lifespan of up to 50,000 hours. Combining affordability, energy savings, and dependable quality, the HKD-HB-02 is an ideal choice for replacing traditional HID highbay systems in a more economical way.
